

Dipping Carousel

The machine is used for mass production of candles. Its operation is automatic, and carries self control systems. It is loaded by hand, and uses automation to stop its operation. It can be combined with an auxiliary recycling wax tank, and operate continuously producing high volume of candles, due to the reliability of its movement mechanism.

Advantages

- High productivity.
- Large variety of final product.
- User friendly. It can be operated by unqualified personnel.
- Designed for long time trouble-free operation.
- Low maintenance requirements
- High safety standards.
- Excellent value for money.

Technical Specifications

Production	65-250 kg/hour
Total Length	900 mm
Total Width	900 mm
Total Height	1660-2660 mm
Total Power	6 HP (4.5 KW)
Total Frame Length	On request
Total Frame Width	On request
Weight	1500 kg
Voltage	400 VAC

This machine produces:

- Cylindrical candles in various sizes and colours
