

Manual moulding machine

The machine is used for production of moulded candles of different shapes and sizes. Using cold water this machine achieves very good quality and high production speed. The machine is manually operated.

Advantages

- High productivity.
- User friendly. It can be operated by unqualified personnel.
- Designed for long time trouble-free operation.
- High safety standards.
- Excellent value for money.

Technical Specifications

Production	3-4 mouldings/hour*
Total Length	1600 mm
Total Width	400 mm
Total Height	1200 mm
Weight	150 kg

This machine produces:

- White moulded candles
- Coloured moulded candles

- Scented moulded candles
- Various shapes and sizes
