

Single Stamp Hydraulic Press

This machine is used for production of decorative candles in various shapes and sizes, with the use of an appropriate mold. It is suitable for production of candles with diameter from $\Phi 40$ to $\Phi 100$, and height from 30 mm to 200 mm. The produced shape can be cylindrical, egg-like, spherical, cubical and more.

Advantages

- High productivity.
- Large variety of final product.
- User friendly. It can be operated by unqualified personnel.
- Designed for long time trouble-free operation.
- Control with the use of an electronic PLC that can store many dimension files, for easy future use.
- High safety standards.
- Excellent value for money.

Technical Specifications

Production	240-360 pcs/hour
Total Length	1220 mm
Total Width	1000 mm
Total Height	2750 mm
Total Power	5,5 HP (4.10 KW)
Weight	1500 kg
Voltage	400 VAC

This machine produces:

- Cylindrical candles in various sizes and colours

- Spherical candles in various sizes and colours

- Egg shaped candles in various sizes and colours
