

Wick Winding Machine

This machine is used for fast wick winding around a metal frame that will then be used in mass production of candles. The machine is semi-automatic. It is fed by hand and it has automatism for interrupting its operation.

Advantages

- High productivity.
- Large variety of final product.
- User friendly. It can be operated by unqualified personnel.
- Designed for long time trouble-free operation.
- High safety standards.
- Excellent value for money.

Technical Specifications

Type	Inverter	Simple
Production (pcs/hour)	60-120	60-100
Total Length	1350 mm	
Total Width	475 mm	
Total Height	1280 mm	
Total Power	0,5 HP (0,36 KW)	
Total Frame Length	Depending on the type	
Total Frame Width	550-600 mm	
Weight	100 kg	
Voltage	220 VAC	380 VAC
Winding Density	10-60 mm
